INTRODUCTION

Have you ever been lost for words, can't think of what to say, tired of racking your brain for the right expression to title your memorybook pages? Well, this book has most of the answers! Now you can stop spending all of your valuable time searching, because I have done all the research for you in this valuable reference book.

This 123 page reference book contains over 5,000 expressions, including: titles, words, phrases, captions, quotes, and ideas to help you get your scrapbook moving in the right direction.

Let me tell you a little bit about my motivation for making this book. First, I must say that I have dedicated myself to several months of research and endless hours of typing and editing to provide you with this invaluable tool. Why? Because, just like you, I have a burning love for scrapbooking, and I want to help you preserve your memories in time.

I am married to a wonderful man with whom we both share the greatest gift of all, our children Stephanie and Alan! I want to preserve all their priceless moments of time, like their smile, their first step, or their first day going to school, how about birthdays, vacations, or holidays, then there's the prom, graduation, even marriage, etc. etc., all of life's great milestones captured in acid free, lignin free memorybooks for them to cherish when they get older. Not only will they cherish the memories of their childhood, but they will cherish the thoughtfulness, creativity, and time that I have spent producing such a wonderful album of memories full of love from their Mother!

Thank you for purchasing this book and if you would like to order additional hardcopies for your friends or relatives, please visit <http://www.lasting-expressions.com>. You can also contact me at the following email address:
